

HOW TO POINT YOUR PERSONAL DOMAIN TO YOUR ONLYBUSINESS.COM SUB-DOMAIN

In order to point your own domain (that you registered elsewhere) to your OnlyBusiness.com website, you will need to follow the steps below. They involve changing the C-name and A-record at your domain registrar. Most hosts allow this to be done through their control panel, and can also be contacted by phone to apply the changes.

Once your site is ready to go live in PREVIEW mode, please publish your website to get your sub-domain ready to point, it will be in this format: <http://yourbusinessname.onlybusiness.com>

The steps below are using Godaddy.com as an example, but you will use the same steps wherever your domain is hosted. It usually takes at least a few hours for your domain to go live. Once the changes take effect with your domain registrar, you will be asked to login to your OnlyBusiness.com account once in order to Activate your domain and send your site live. There will be no reference whatsoever to the OnlyBusiness.com sub-domain after your site goes live.

C-NAME CHANGE

PLEASE FOLLOW STEPS BELOW

To change the CNAME or sub-domain on GoDaddy,

1. Log into your account at <http://www.godaddy.com/>.

The screenshot shows the GoDaddy.com homepage. At the top, there is a navigation bar with links for 'Domains', 'Hosting', 'Email', 'Websites', 'Search Engines', 'SSL & Security', 'Resellers', 'Affiliates', 'Auctions', and 'My Account'. A red arrow points to the 'My Account' link. Below the navigation bar, there is a promotional banner for 'New .COMs and .COs \$11.99' with a 'SAVE 60%' tag. To the right of the banner is a photo of Danica Patrick, a racing star, with her signature. Below the banner is a domain search bar with a dropdown menu set to '.com' and a 'GO' button. Underneath the search bar, there are several offers: 'Domains for just \$1.99*', '.COM Transfers \$7.49*', 'Save on 6+ Domains Plus FREE Privacy', and 'Domains Include FREE InstantPage'. A link 'Express Domain Search' is also visible. At the bottom of the page, there are four video thumbnails with titles: 'Why you need a domain', 'Navigating GoDaddy.com', 'Why choose GoDaddy?', and 'How you can use a domain'.

- After logging in, click on **Domains->MY Account->Domain Management**.

Answer Center

[Why should I upgrade to Premium DNS?](#)

How to make C-Name entry:

Enter "**yourbusinessname.onlybusiness.com**" in the "Points to" field, and "**www**" in "Host" name. Leave the TTL as 1 Hour.

How to make A (Host) Record entry:

If @ sign is not there in A(Host) section then click on the "Quick Add", or if @ entry is already There, Click on the Edit button against it. A pop up dialog will be opened, Enter @ in "Host" name and "67.192.85.15" in "Points to" field, leave TTL to default 1 hour and click on "OK" and then "Save" button at the bottom of the page. Settings would take 1-2 hour's time to be effective.
